THE AUTHOR

Dr. Nupur Kohli, a medical doctor from the Academic Medical Center, Amsterdam in the Netherlands, is no stranger to stress and chronic pressure. As an ambitious hard working professional Dr. Nupur Kohli has experienced what stress and chronic pressure mean in career building and how these develop in professional life that often result in a big reduction in personal and professional productivity in important phases in one's life. Specific solutions had to be found. This generated an interest in her to research what this means to different professional backgrounds and what we can do about stress and chronic pressure.

She is a renowned versatile public speaker and a regular speaker at international forums where she has earned a reputation of a prominent woman speaker to inspire, educate, motivate and provide solutions to people's problems and she does that with lot of enthusiasm. In the year 2012 she spoke on the TED platform winning the TEDx Award in Delft, the Netherlands.

Dr. Nupur Kohli appeared on several radio shows in Europe and appeared on national television to discuss issues relevant to the well-being in our societies. Her articles and interviews appeared in several European magazines such as Global Health Magazine and Cosmopolitan magazine. Her interviews also appeared in newspapers in Asia. She is the founder of a youth foundation in Europe and is in the board of several NGOs. Helping people with both medical

and non- medical means is her passion benefitting numerous people worldwide.

Through her research she dedicated several years to find solutions to stress and chronic pressure to improve personal and professional productivity in people from different professional backgrounds. With this insight and solutions the book, "**Chill! How to survive stress and improve personal and professional productivity. Symptoms and solutions to chronic pressure**" is born; A powerful guide to manage your stress effectively and with this improve your productivity in your personal and professional life.
